

# E. Hartford Tract To Be Sub-Divided

## T. Shannon and Sons Will Make 33 Building Lots From Area Calling It 'Forest Village'

T. Shannon and Sons, builders and developers of considerable property in East Hartford, have bought 22 acres of land which fronts on Forest and Forbes streets, East Hartford, and will immediately start to sub-divide it.

The firm expects to have 33 building lots on the tract for attractive homes in the \$5000 class. Construction work on several houses will start within a few days. Lots will also be offered for sale to the public and other builders.

The tract has been named "Forest Village" and is on a high elevation with a gentle slope. A small brook winds its way through the center of the property.

A colonial house of the salt box type of architecture, built in 1712, stands on the land and was included in the purchase. The house will be completely modernized.

The Shannon family has been active in East Hartford building for 27 years. Their developments include Wind Road and Terry Road, East Hartford.
